

Lang, Jerry Class of '62

November 1, 1943 - December 28, 2012

Jerry Lang, 69, of Victoria BC passed away peacefully at Vancouver General Hospital from leukemia and related complications, surrounded by loved ones on December 28, 2012. While growing up in Victoria, BC, he attended the North Ward and Chinese Schools, S J Willis and Victoria High Schools (he cherished reunions with friends from Vic High). While Jerry loved the outdoors and sharing his knowledge as a Marine Biologist his true passion was cooking for friends and family when he wasn't outside in the garden or fishing. Jerry's philosophy of life was built upon kindness, compassion and generosity and his large network of friends and professional relationships are a testament to his character. Whether he was working in the office, volunteering at the hatchery or teaching in the lab he would always find a moment to proudly tell stories about his children or share pictures of his loving grandchildren. He is survived by his wife Mary, mother Jennie, sons Jaret and Jeffrey, and sisters Jane and Joyce. He also leaves behind several, nieces, nephews, cousins, in-laws, and a host of friends, colleagues, and students who played very important roles in his life. Fish on!
