Her love of family brought her great joy and comfort for many years. She lived through two pandemics,

two world wars, the Yokohama earthquake (that killed 120,000 souls including her sister Joan), the Great Depression, abdication of a king, the longest reigning British monarch, founding of the state of Israel, creation and dissolution of the USSR, the lunar landing, TV and the internet. Marjorie worked for the BC Provincial Government in the Archives for 25 years. She loved reading the daily newspaper and biographies. Her long life was thanks to a very careful diet and lots of walking. She was an inspiration to all who met her and we will miss her greatly.
