

**John Harrison (1961)**

**October 12, 1942 - August 24, 2023**

The world has lost a very good man. John died in peace with his children by his side.

John was very creative and had much talent for music, art, woodworking, construction, electronics, hot rods, and all things "boat". Born in Victoria to May and Harold Harrison, they supported him in his early endeavours; hours of trumpet practice, band jams and baseball. In the 1960's you would find him cruising to his dance-band gigs and Slo-Pitch baseball games in his burgundy 1964 Comet Caliente.

After spending a lifetime working in cablevision (CATV) in Victoria, Saltspring Island, the Lower Mainland, Alaska, and Illinois, he retired back to his birthplace.

He reminisced often of all the wonderful experiences he was privileged to have shared with family and many friends. He was a proud and patient Dad. His most cherished memories were of exploring the Pacific Northwest in his Uniflite boat with his much-loved children, Andrea and Sterling.

Always in our hearts.
